Moorlands Green Arts Festival

In June 2026, **Moorlands Climate Action** once again brought together people of all ages from across the Moorlands and beyond for the sixth annual HuG Festival. In what was a summer of heatwaves the sun shone - of course.

The crises in climate and nature are deadly real, but our message remains that creativity, hope, laughter and community spirit are key weapons in our struggle. And so, we played, created, connected and most off all we informed.

A thousand thanks go to all who attended, performed, took part or volunteered. Thank you to those who supported and whose funding made it possible: the National Lottery through the Nature in Your Neighbourhood project and the Staffordshire Moorlands District Council Climate Action Fund. Thank you as always to Vicki and all her wonderful staff at the Foxlowe Arts Centre, with whom this event is twinned at birth. Most of all to Lindsay Trevarthen, whose drive and vision made it happen.
